Control your communications

Your entire business phone system can be set up and modified with only a few mouse clicks. Once the Business Phone is installed, you can access a simple web portal that allows you to control how the system works.

Manage call routing with FindMe/FollowMe, to setup simple or complex routing rules to conditionally forward callers based on time of day; to any location.

Free calling between any two headsets regardless of the callers location

Online call management & caller log.

Personal & corporate phone directories available right on your phone handset.

Visual voice mail in the web portal.
